Work Experience

UX/UI Designer – Frontend Developer
EBCONT Communication GmbH
10/2024 – 01/2025 — Vienna, Austria

My contribution
- Created a low-fidelity component library from scratch in Figma to streamline design workflows
- Expanded and maintained a scalable design system in Figma for consistency across products
- Ensured accessibility and usability by applying WCAG guidelines and UX best practices
- Designed wireframes for a large-scale project replacing an outdated tool
- Developed high-fidelity screen designs and interactive prototypes for user validation
- Led the redesign of an existing tool, implementing it with HTML, CSS, and JavaScript, and deploying it on our server

Software Developer – UX Architect
Erste Digital GmbH
09/2023 – 08/2024 — Vienna, Austria

My contribution
- Improved a major internal tool by developing new features and enhancements in Angular
- Built reusable HTML/SASS components based on our Sketch design system
- Planned and facilitated research workshops to gather user insights
- Designed wireframes and high-fidelity screen designs to support product development
- Expanded and maintained our design system for consistency across applications.
- Conducted usability testing to validate design decisions and improve user experience

Customer Support Engineer
New Work SE
11/2022 – 08/2023 — Vienna, Austria

My contribution
- Developed templates using HTML, CSS, and PHP to improve website functionality
- Resolved diverse technical issues faced by customers with efficient problem-solving
- Optimized and streamlined the customer support workflow for better efficiency
- Increased customer satisfaction through high-quality support and effective issue resolution

IT Administrator
Heiss & Süss GmbH
08/2022 – 10/2022 — Altlengbach, Austria
